## INTRODUCTION

In the year 2001 Lord Prof. Momtchil DObreV developed the “theory of the mafia” and “Theory of corruption”. All the both theories he developed by analyzing of the mafia and the corruption all over the wrld. In Bulgaria, Germany, European Union, and other countries. THEORY AND PRACTICE of CREATION, CONTROL, INCREASE AND MANAGEMENT OF INEQUALITIES in countries, the whole world – from the Global Masonic Mafiotic Elite and the Deep Mafia of Prince Lord prof. Momchil Dobrev – 2003. In 2004, Lord Prof. Momtchil Dobrev – Halachev and Princess Prof. Mariola Garibova-Dobrea created the Theory and methods of CREATION, INCREASE, DEEPENING, MANAGEMENT of POVERTY in countries and the world based on the principles of the deep mafia, Theory of mafia and mafia fascism, Theory of colonization / mastery of countries / unions, Theory of social genocide, Zikr- Formula of the tunnel system - spiral - centrifuge of human genocide. In the year 2003 Lord Prof. Momtchil Dobrev developed the "Theory of generating crises". The theory of generating crises has been developed by analyzing all the relationships between countries, and lysing the causes and consequences of crises. The theory examines all possible options for generating crises. In 2003, Prince Lord Prof. Momtchil Dobrev created a Theory of Creating and Causing Crises by Mafia-Fascism and Financial Banking Resource Technological Mafia-Driven Materialism, which predicted the 2008 FINANCIAL CRISIS. In the year 2006 Lord Prof. Momtchil Dobrev developed the ‘ Theory of Mafiotismus’ and his appearance “ Financially banking resource-baed technological mafia-driven Materialism” – the new old over 400 years form of personal and private capitalism on state level – based on the Momtchil Dobrev’s Theory and practice of Mafiotismus” -Lord Prof. Momtchil Dobrev developed the “ The Financial banking resource-based technological mafia-driven MATERIALISM” the real materialism as a critique of the Karl Marx’ “Historical Materialim”2003 .

**Introduce the Problem:** The problem of poverty in the whole world is huge. But instead of solving this problem, mafia fascism, which rules the world, creates schemes to create this poverty, to increase it, exponentially, to develop this poverty, to control and manage it.

Mafia fascism also creates businesses for the poor – in short – fast loans, and second-hand goods stores – from clothes to clothing, household appliances, to cars, household appliances, televisions, and others, and businesses for the rich – yachts, real estate, airplanes. The problem of the emerging new kind of capitalism - named by Prof. Dr. Momchil Dobrev MAFIOTISMUS is enormous because it concerns not only the rule of one state but also the governance of a union of states and a way of managing the world. This is really the new world order with precisely defined principles and ways of management. This kind of government creates a failure of a state, union, or order of states to develop normally, develop their democracies, and nurture democratic governments. This creates not only crises but also irreversible processes of destruction and destruction of entire nations, peoples, worlds, states, alliances.

The importance of revealing the real and real causes of the existence of the Mafiotimusu, its development is of great importance for our entire civilization. This is important in order to be able to anticipate and track such processes and take real measures to prevent such crises.

The thesis of Lord Prof. Dr. Momchil Dobrev is that the Mafiotismus is the new kind of capitalism based on the private and personal interests of the people of the mafia starting from the prime minister, ministers, government, members of the mafia.

#### **The system of creating, increasing, deepening, and managing poverty includes the following processes:**

Mafiaization of the court, prosecutor's office, state. Mafiaization of the social system - creating a system of social genocide - Theory of social genocide. Mafiaization of healthcare, Mafiaization of education. Mafiaization of justice and legality. Creation of a system of social genocide - described in the THEORY OF SOCIAL HUMAN GENOCIDE by Prince Lord Prof. Momchil Dobrev-Halachev and Princess Prof. Mariola Garibova-Dobrev, Creation of fear and degrees of fear in the entire population, a group of populations, in a group of countries - such as in the European Union - developed on the basis and according to the theory created by Prince Lord Prof. Momchil Dobrev and Princess Lady Prof. Mariola Garibova-Dobrev - THEORY OF SEE and DEGREES OF FEAR, Creating a system for bringing people at least 90 percent of the population into the so-called TUNNEL CYCLE SPIRAL CENTRIFUGE – HUMAN GENOCIDE – debt centrifuge, social centrifuge, pandemic centrifuge, educational centrifuge, health centrifuge, value centrifuge – debunked by Prince Lord Prof. Momchil Dobrev – Halachev and Princess Lady Prof. Mariola Garibova-Dobrev - 2004, CREATING INEQUALITIES, increasing inequality, based on the Theory and Practice of Creating, Managing, Controlling and Exacerbating Inequalities by Prof. Momchil Dobrev. Creating crises in all spheres of public life - social sphere, healthcare, education, intensifying these crises, intensifying problems, All social engineering systems for creating inequalities, poverty, demographic crises, social crises, health crises begin after the truce, the transition from a system like socialism to capitalism, keeping salaries low in all areas – police, national security, defense, teachers, professors, doctors, and other judges, prosecutors, with the aim of making honest and valiant professionals leave and the mafia appoint its own people in their place.

Only after the destruction of value systems in social systems. A system of destruction of the value system in social systems - healthcare, education, police, law enforcement agencies and others - exactly as described in the Theory of Types and Degrees of Value Systems by Prince Lord Prof. Momchil Dobrev and Princess Lady Prof. Mariola Garibova-Dobrev – 2004. Destruction of the system of sovereignty in a state, union - the European Union according to the Theory of Types and Degrees of Sovereignty by Prince Lord Prof. Momchil Dobrev and Princess Lady Prof. Mariola Garibova-Dobrev – 2004. Practically this happens when keeping low salaries, imposing corruption and mafia in these structures, lawlessness, lawlessness, fulfilling orders, legalizing crimes. This is followed by the mafiaization of the court, prosecutor's office and the state and actually the complete mafiaization of society. In this system of mafiaization, poverty is best created, poverty is strengthened, poverty is managed. The goal is for the person or family to have so many problems - financial, human, and any other, that they do not look and cannot be interested or express their opinion, attitude to violations, corruption and mafia in society and state structures. Mafiaization is the main method of destruction of a social system and a society. By imposing all kinds of spirals - spirals of lawlessness, lawlessness, corruption of social systems, - state power, education, national security - police, gendarmerie, defense. At the same time, creating businesses for poor people - quick loans - through them, the implementation of the debt spiral, the financial spiral, complete dependence on money and the shortage of this money - lack of threats. At the same time, the increase in prices for services, electricity, water, services, food, continuous unjustified raising of the marginal prices, imposition of monopolies to manage and exploit the people and the population. Creation of systems for DEBT, SPIRALS, and all kinds of spirals in the social sphere, healthcare, education with the newly created TUNNEL CYCLE SPIRAL CENTRIFUGE - HUMAN GENOCIDE - debt centrifuge, social centrifuge, pandemic centrifuge, educational centrifuge, health centrifuge, value centrifuge - unraveled by

Prince Lord Prof. Momchil Dobrev - Halachev and Princess Lady Prof. Mariola Garibova-Dobrev - 2004, Creation of spirals in debt spirals education, healthcare, by increasing prices, limiting access, imposing compensation schemes,

The only goal is the profit and enslavement of peoples, states, governments, creation of monopolies. Participating countries - banks, financial institutions, companies - oil, resource, steel, oil, food, medicine, fuel. Finance and money determine politics, wars, peace. Primary goal and approach: Formation of central banks in the bigger states that actually control not only finance, but also economic activity and politics. These central banks will be controlled by governments, states, parties, citizens, a whole territory, in terms of money, investment, resources, use, in whose favor and for what. These are the initial steps. Establishment of central banks in the major countries in fact to control not only finance but also economic activity. Establishment of central banks in countries owned by private individuals and private banks. This controls the economies of these countries, governments of these countries, citizens, over entire societies. Where not allow the creation of private central banks in the countries - generate occasions to cause civil wars, wars between countries, causing "revolutions" - financing by the banking and financial resources technological capital. Creating conditions for the destabilization of the country, import of corruption, causing a civil war, causing war, creation of conditions for maturation of the economic crisis which lead to the destabilization of the political power in the country.

**Goals:** Controlling 99.9% of the population by governments - not only through finances, but also by raising faithful government and state subjects - from universities, world institutions, clubs, lodges, foundations, which then either become presidents, prime ministers, ministers, heads and important departments.

Gathering 99.9% of the population. Giving up 99.9% of income, savings - through high taxes, interest rates, rising food prices, higher service prices, increased consumer prices, increased interest rates on credit cards, fast credit, Control of security services and command of compromise. **CREATION AND MANAGEMENT OF INEQUALITIES THEORY AND PRACTICE of CREATION, INCREASING, DEEPENING, MANAGEMENT of POVERTY in countries and the world by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobrev – 2004,**

CREATION OF GENDER PRODUCTS - FURTHER POVERTY - FAST CREDITS FAST LOANS WITHOUT SECURITY, WORK-FREE AGREEMENTS, QUICK LOANS WITH HIGH INTEREST - EXTRAORDINARY INTEREST, All this will cause stress, fear and insecurity in the global poor. The vent will be gambling, alcohol, drugs - bigger profits, greater dependence. These industries will make huge profits. There will be grocery stores with cheap goods, secondhand and second-hand goods. On the other hand, the state supports this laughter by increasing taxes, increasing uncertainty in justice, gaining justice, Creating laws through which taxpayers and their administration set their own tax levels, tax rates - profit tax, real estate tax, municipal waste tax, dropping the opportunity to appeal immeasurably to huge tax assessments - determined in an unlawful way and way from the ruling. The Mafia will manage the administrative courts - there will be no real opportunity to get justice. The aim will be to reduce the middle class, to be diminished, to be destroyed, to be bled, to have no strength to develop, to resist crises and to create competitive products, services, Real investment opportunities for the middle class will disappear, reducing purchasing power. As a final result, the middle class will move to the global poor. Both the global poor and the middle class will enter the spiral of poverty - the centrifuge - the vortex of destruction and slavery. And the debt spiral.

The real middle class will evaporate. The system of idleness will be covered by fast loans at huge interest rates - with exponentially high interest rates. Only two types of businesses are developing - a business for the vast wealthy and business for the global poor. Only for these two layers. Global inequality as a business opportunity to deepen and grow. Money from the division of society Enhancing this inequality Creating unique profit opportunities. Global strategies for development, increasing, deepening inequality. The shifting of money, goods, services, prices in the global economy, Plutonomy - the rich become richer, it is about 0.1% of the rich Oil companies, steel, construction, hedge funds, food industry, chemical multi-companies, supermarkets, airplane builders, pharmaceutical companies, car manufacturers, internet providers. Greater polarization and increased inequality. Neighborhood between countries is increasing. The inequality in each of the countries will increase tremendously.

**TYPES OF BUSINESS FOR MANAGING AND INCREASING INEQUALITY THEORY AND PRACTICE of CREATING, INCREASING, DEEPENING, MANAGING POVERTY in countries and the world by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobrev – 2004**

On top are the super rich - who buy a car Bentley, and the Lear aircraft. Global poor people create products and services for selling products for poverty - Quick Loans

- Contracts without fixed working hours
- Quick loans
- Loans at huge interest rates
- They are followed by a reaction - stress, tension - which leads to an increase in the business of alcohol, drugs, gambling - hence the collapse of individuals, peoples, communities
- Stores for cheap goods
- As a result, pressure on the middle class, which at some point will be forced to disappear.
- The middle class will move to the poor class
- Vacations, a new car and more - and that's all on credit.
- Both countries - expensive cars and services, properties,

Prekariat" - the poor 99, 9% of the population - mischief manages passions, nerves, behavior. Focus the business of these mega-companies on the two layers: super-rich and super-poor. Generating crises that will lead to a stronger and overall impoverishment of the middle class, with the poor class being multiplied. The institutions that create the division of the layers, the management of this division, both for whole countries and in the countries themselves, increase this division, strengthen the division. The IMF, the World Bank The process is the transfer of wealth from the poorest to the richest. Fundamental Rights - Damaged Rights,

Therapies and services

Justice.

Mafia - reinforces inequality through corruption

Mafia strengthens inequalities through mafia-driven behavior, management.

Growing cost bubble

They work with a wage of poverty - insecurity.

The poor die 10 years before the rich.

Social cleansing

Social cleansing and Islamization.

Working on 12-hour shifts with a contract without working time.

Their lives go on a journey - at least 90 minutes from their home.

Separation of cities, districts.

Create two types of cities and neighborhoods.

Both layers are actually avoided, do not cooperate, do not communicate, do not communicate with each other. There is a division in the cultural, emotional, communication sphere, not only in the social sphere. Demolition of social contacts, social networks, poor people reduce food and heating to survive in order to be able to pay their rents. Now 41% of the German's income goes to rent the house, whereas 3-4 years ago this cost

was 25% of the income of the Germans. There is a steady increase in costs. Long-term inequality is increasing. Debt as a means of increasing division.

**MANAGEMENT OF INEQUALITIES BY CREATING THE DEBT SPIRAL AND ITS MANAGEMENT AND CONTROL THEORY AND PRACTICE of CREATING, INCREASING, DEEPENING, MANAGEMENT of POVERTY in countries and the world by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobrev – 2004,**

Through debt can be controlled, it controls the division. Reduce mortgage funds, systems to support small and medium businesses, support their businesses. Quantification facilities go to the rich companies. Public procurement is managed only by the rich, poor and medium-sized firms are pushed out of competitions, auctions, public procurement. Public contracts are made for well-defined enormous companies so that they only meet the conditions and requirements for participating in the respective auction, competition or public procurement. Banks finance and support only the wealthy companies. European funding goes to the rich companies. Fast credit companies. The debt industry is part of the means of creating, managing, controlling the division of society. The financial industry is a vehicle for this debt industry. The financial industry with the provision of fast loans with high and huge interest rates. The emergence of fast-paced companies where money laundering, uncontrolled money laundering is only rich. Rich people invest in products, industries, business services for the poor. They practically deepen and accelerate divide and inequality. Extended credits for the purchase of cars, furniture, holidays, properties, Bridge credit quick credits to cover heating and food bills Debt - its increase practically accelerates inequality and division into society. 93% of the ownership in Bulgaria is private. By dividing and increasing inequality - virtually because of poverty, this property is reduced as people have to sell their property to survive to bind the two ends, Continuous increase in taxes, food prices, services, utilities. Trading in debt, increasing debt, financial institutions trade in our debts. Quantitative facilities in the US 2008 actually go to the financial institutions instead of going to citizens. Instead of spending money on services, appliances, holidays, refrigerators, TVs, cars. Instead, these quantitative facilities have increased and increased inequality and division. The plan was more debt, Money throwing in crisis really creates greater inequality and the division of society. Calculation of poverty - falling into debt - increasing debt -All measures taken by government policies aimed at and guaranteeing the increase of debt in people. Household debt in the UK is now about £ 395 billion.

**CREATION OF INEQUALITIES BETWEEN STATES through the instruments of the International Monetary Fund and the World Bank – PART OF THEORY AND PRACTICE of CREATION, INCREASE, DEEPENING, MANAGEMENT of POVERTY in countries and the world by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobrev – 2004,** The policies of the IMF and the World Bank - the indebtedness of entire nations, nations, in order to long increase the division of inequality, buying - privatization of state-owned enterprises, funds, resources, entire economic branches, Inequalities between countries. Crisis-building, and at the same time offering the IMF and the World Bank to help countries emerge from these crises. Creating the crises in Latin America. The IMF offers aid to resolve these crises. The IMF fails to cope with these crises. This is deliberately done. The ultimate goal is to create these countries' debt spirals with the IMF and the World Bank. As a result of these impacts - deepening disproportions, accelerating the lagging behind of these countries from other countries - increasing inequalities between countries. When do these crises occur, for example, in Latin America? When the interests of the United States are threatened in those regions that are very rich in natural resources. Example The US is losing its lead in Bolivia after the nationalization of lead mines. Outcome - The United States is seeking an option to overthrow the government. 1952 General Bariantes won the election. Steps - The military dictatorship opens wide Bolivia's doors to foreign capital. The IMF's stabilization strategies include the following steps:

Free exchange rate (introduction of special customs tariffs. Freezing wages - resulting in mass unemployment. Lack of social programs. Bolivia has been brought to a halt. The same happened in 1960 in Uruguay. There is an increasing deficit in the state budget. National Banks created in 1949-1959 and 88 foreign banks contributed to Uruguay's instability. 19548 Uruguay exports gold to the United States. For \$ 16.5 million. The country is plagued by misery. Difficult supply of the population with basic goods and services. The IMF forbids Uruguay and concluding bilateral trade agreements with foreign countries that it can not control. Such bilateral treaties, however, lead to increased commodity exchange and stabilization of economies, export of goods, resources. The IMF will take over all Uruguay's commercial and financial operations. The MFA also puts the National Bank of Montevideo in check. 1968 The IMF has urged the National Bank of Uruguay to reduce its loans to the public sector and to increase foreign loans. , which makes them dependent on foreign credits. As a result, inflation has jumped tenfold over the period 1966-1972. Exit \$ 350 billion out of the country. Uruguay's foreign debt increased from 5.3 billion pounds in 1967. to 14.7 billion pesos in 1970. There is speculation and the black bazaar. Crime and inequality are increasing. 1956 is provoking the crisis in Argentina. The agreement with the International Monetary Fund (IMF) reduces currency reserves, foreign trade, prices are increasing, the balance of payments is undermined, the State is obliged to provide full information to the IMF, which information is relevant to national security and national defense. The state allows the entry of foreign capital. The aid received by the fund is much smaller than the promised. For the period 1958 to 1970 the Argentine peso was 13 devaluated. The level of living is sharply declining, the population is massively impoverished, it increases the state regulation. In the late 1950s Brazil reached hyperinflation, based on the low purchase prices of coffee. , wages fall 4 times, Real national resources are acquired by foreign companies. Brazil is seeking the assistance of the IMF. The measures are: - reduction of the wage quota for the budget sector workers from 37% to 27%. , 300,000 staff from state-owned enterprises have been cut. this is 20%. The gap between rich and poor is deepening. The total poverty of the population is increasing. 1968 Peru agreed with the IMF to create 450 foreign companies. These companies are from Japan, the US, and the US Debt to foreign countries is rising enormously, In 1968, party is insolvent. In 1970, in Peru, the representatives of foreign firms who violated the laws of the state were sued. There is a partial nationalization. In 1972, government investment is 39%, in 1973 - 42%, in 1974 - 43%. There is a strong link between strong economic groups and foreign capital, which leads to economic destabilization. This applies to Brazil, Argentina, Chile. The IMF aims to liberalize foreign capital, no stabilization of the national market. The goal is to penetrate foreign companies into countries exporting resources, goods, national wealth, without engaging in the development of local economy, markets, consumption. Inequality grows drastically, dissatisfaction grows into strikes and riots, poverty rises. In Jamaica, after the nationalization of the bauxite industry, which is the main source of revenue for the national budget, economic growth is declining, government debt has increased from 1973 to 1980 from \$ 501 million to \$ 1,595 billion in 1992. and in 1992. is now \$ 2 billion. Jamaica is looking for help from the IMF, which promises \$ 240 million over a three-year period, returns to the proceeds instead of returning to the hands of foreign investors and related strata. Real over 300 million dollars are flowing. As a result, consumer goods prices are rising, poverty is rising, oil, electricity and water prices are rising. , unemployment is rising dramatically, the IMF is not really interested in any social activities, a new contract with the IMF - leads to freezing of salaries, creating favorable conditions for entering foreign capital, limiting the use of currency, 1982. Jamaica's unemployment rate reaches 26%. The militarization of the country began with the help of the United States in 1982. Jamaica became the first US assistant to aggression in Grenada. Regulating the economies of Latin American countries through the IMF accelerates and increases their indecision. In the IMF system, it creates speculation and crime.

Devaluation of the national currency, increase of debts, accelerated inflation, reduction of stability, creation of chaos, creation of continuous conflict, export of capital, absorption and acquisition of the resources of the states of inexact, Only in 1988 are exported capital in the amount to \$ 420 billion from the Latin American countries. The IMF does not change its strategy and approach even after the increase in liabilities, which actually leads to the impossibility of repaying the financial obligations, decreases the investment, which in turn increases instability and accelerates the debt spiral. The main instrument the IMF advises on regulating the deficit - is the devaluation of the currency, which in turn accelerates the debt spiral. This is proved for Brazil in 1986, in Mexico for 1986, Argentina - 1986-1988. It also leads to a reduction in production. For Chile, this is 15: for the period 1974-1975, for Venezuela it is 8% for 1989, for Peru - it is 6% for 1990. The devaluation leads to an enormous increase in inflation, which leads to an acceleration of the debt spiral.

All this leads to hyperinflation.

For Argentina, inflation reaches 4000% in 80 years. 40% of the population is plummeting sharply and quickly. The other instrument by which the IMF is ruining the countries is privatization. The purpose of the IMF and FBTTM representatives is Materialism is the purchase of the main sectoral businesses of the priceless of the nearby living rooms.

This is all involved in so-called shock therapy. Banking reforms that target and prepare MFIs have the ultimate goal of privatizing banks and, hence, assets, companies - major industries, foreign trade companies, major resource-producing enterprises, commodities,

**DESTRUCTION OF THE AVERAGE SALARY CLASS AS A FORM AND INSTRUMENT TO INCREASE THE INEQUALITIES - THEORY AND PRACTICE of CREATION, INCREASE, DEEPENING, MANAGEMENT of POVERTY in countries and the world by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobrev – 2004, And Theory of Social Genocide**

In the 50s - 60s is the middle class - the middle class increases consumption and investment in mass consumption.

Over the last 20 years, the middle class has shrunk -

In 1945 - 1978 the wealth of society was distributed more evenly.

The middle class had opportunities and means to own real estate.

Millions of people acquire real estate

Most have had the opportunity to buy their own home for the first time.

Back in Bulgaria.

After 1996 the trend turns.

There is a stagnation of wages, and an increase in costs and living costs.

At present, 41% of the average income of the Germans goes to rent the used dwelling.

Five years ago, these costs were 25% of the average income.

Real estate prices are rising faster than income.

The riches of the richest grow much faster than average wealth and much faster than the size of the economy.

Rent is a norm for a home A family that pays the rent for one life is poorer with £ 561,000 from a family it buys.

Real estate is growing faster than income increases. Costs grow faster than incomes.

Separately, the rent grows faster than the monthly installment to cover the mortgage of the purchased dwelling.

Practical wealth begins to melt and decline faster than income increases.

By 1968, the French had almost overthrown President de Gaulle

BANKS create inequality in the consumption of mortgages

Norms morale fall inequality is increasing

Disparities in opportunities - inequality of opportunities for manifestation - talent and others.

There is no equality of opportunity.

Alter Laffer sink of wealth -

The economy of percolation is as old as civilization. Previously, it was called Divine Law.

Reagan-Tachyrisism - Makes wealthy people richer, everyone will be richer.

Investments reduce economic decline, it does not happen that if you give more money to the rich, it will create jobs.

**INCREASE INEQUALITIES BY MAFIOTIZATION OF THE JUDICIAL SYSTEM, STATE APPARATUS THEORY AND PRACTICE of CREATION, INCREASE, DEEPENING, MANAGEMENT of POVERTY in countries and the world by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobrev – 2004, mafiaization of the court, prosecutor's office, state, all state and social institutions – ministries – healthcare, education**

By manipulating and introducing corrupt practices among judges, prosecutors, investigators, civil servants, ministries, municipal services, mayoralities, citizens are guaranteed:

- Loss of rights
- Loss of justice
- Loss of legality.

Mafiotismus as a form of government, creation, control of inequalities in one country, different countries.

**FORMULA OF THE MAFIOTISMUS**

**The most simple model of mafiaism that describes the factors that affect the amount, type, and etc of the mafia is the following:**

MAFIOTISMUS = PERSONAL Power / on the top of state institutions / state and etc./ + Influence + Connections / to personal, private companies + Interests / personal, corporate / + ORDER / ORDERS + Personal control of all state neveaus + of all states niveaus Mafia structure / inside or outside / + Monopolity Rigths + laws / rules / practices / procedures + possibility of taking an alternative decision - obligation - responsibilities - morality / ethics other resources (including European funds and funds.

This MAFIOTISMUS takes on the basis of the "Financially-Based Material-Based Materialism-Based Materialism" developed by Lod Prof. Prof. Prof. Momtchil Dobrev - Halachev. The whole process is assisted and accelerated by the environment for the emergence of all crises - neoliberalism and globalization. Inequality between citizens and layers in society. Through funding - state and other, through laws, through the import of corruption and / corrupt methods / mafia. Through the curve of the duty of a family, a nation can count inequality, the division of the nation. The debt curve shows the value of poverty, the development of poverty. Poverty assessment is through debt debt analysis.

This is a scam. The deception of the value of pensions from wages and, respectively, gross domestic product. In India, Portugal, Italy, pensions are 90% of the salary, in Turkey - 100 %% of salary, in Croatia - 129 %% of salary. In Bulgaria - the minimum pension is 40% of the minimum wage, the average pension is 33% of the average salary. At the same time, Bulgaria sets a corporate tax of 10% for businesses and citizens. This supports the division of the population. On average, the European Union is 71% of the salary. Determination of the minimum wage as a dependence on Gross Domestic Product - the other fraud.

**FRAUD FOR DETERMINING THE MINIMUM WORK WAGE**

**Minimum wage setting systems applied worldwide:**

Nordic model - this model is applied in Denmark, Finland, Norway, Sweden and Iceland, as well as Austria and Switzerland. This model lacks a national and universal wage that applies to workers regardless of their industry or geographic location. The minimum wage level is set in the framework of the dialogue between employers and workers' organizations in particular sectors. The minimum wage is included in the collective agreement, which applies to a particular sector, which applies to trade union members and other workers. In Sweden, the minimum wage is determined not only by industry, but also by age, experience and education. This payment really corresponds to the opportunity in the individual branches and the qualities of the workers. The collective agreement restricts the possibility of free negotiation directly between the employer and the employee. There is a strong social dialogue and a wide trade union membership with strong pro-business legislation.

**JAPAN MODEL:** Payments depend on the region (prefecture) and the particular sector. The sizes of the different minimum rates depend on the living standard and cost of living in the individual prefectures, as well as on the employers' ability. Minimal regional levels are determined by the central government, and local authorities decide on sectoral minimums in their prefectures, as part of a dialogue between employees and employers. This model allows maximum account to be taken of differences between regional economies and those with sectors. . It all depends on how employers 'and workers' organizations will agree.

**IRELAND MODEL**

Paying here is hourly. These minimum hourly rates depend on age, experience and status / permanent, temporary employment, training, worker experience,. So younger people have lower rates. The same applies to hiring for training or internship. There is no dependence on regional or industry reporting here. Such a system is also applied in New Zealand. Models based on macroeconomic formulas ie. depend on the dynamics of macroeconomic indicators.

**DISTRIBUTION OF INCOME to a state as a way of division, increasing the inequality in the respective state with the Western states such THROUGH FOREIGN INVESTMENTS to increase and create POVERTY**

From Trading Circuits. 90 - 98% of the products sold are imported from abroad - given on credit with corresponding interest and penalties for delay, for the respective term. Prices are made - higher to be given on consignment. Debt is immediately. The money from the turnover of the companies is imported into the vault in the evening every night in the vault of a banking institution - mostly foreign. The next morning the next day, the money is credited to a correspondent bank account in the bank, which correspondent bank account is such to a foreign bank from abroad. Actually, on this correspondent bank account the shares are paid to our parent company abroad. So no taxes are paid in the state in this case Bulgaria. Turnovers per month of revenue draining from Bulgaria are on average between 5 and 7 billion euros, not taxable. This is evidenced by the profits that register chains of food, consumer goods stores.

For services or mobile products or services. The actual payment of these services if the purpose is to use a 10% profit tax in Bulgaria can be made in the country itself. However, the real situation is as follows: money paid for social services is transferred to bank accounts in branches of banks that are not controlled by the Central Bank as they are branches

For banking services. Money transfer, trading, This is mostly done through branches of banks that are not really controlled by the central bank and are not subject to banking supervision. These branches under all legal provisions for branches of banks whose head offices are in another

country of a European country. These banks are controlled through banking supervision in the countries where they are registered, but not in the country where they have only branches. Payments in these branches are made by mostly foreign bank account companies, which are correspondent bank accounts of parent banks or banks abroad, and the authentication of these bank accounts is already the case in the relevant correspondent bank accounts abroad. In fact, no taxes are paid on this money. All of these schemes are evidenced by the analysis of more than 500 manufacturing, commercial, firm, product sales chains, with a real turnover of € 400-800 million, making a profit of 1-2 million euros, which does not really correspond on

**THE PRINCIPAL SCHEME OF THE GEORGE SOROS WORK OF INCREASING AND MANAGEMENT OF INEQUALITIES THEORY AND PRACTICE of CREATION, INCREASING, DEEPENING, MANAGEMENT of POVERTY in countries and the world by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobрева – 2004, mafiatization of countries, colonization of countries by mafia-fascism**

The goals of SOROS are as follows:

Destabilization - chaos of one country, a whole system, inside - without war

Destabilization - chaos in economic direction

Destabilizers - chaos of society

Destabilization - a chaos of civil society

Destabilization of the currency

Destabilization of the economy

Destabilization - chaos in education

Breaking the moral norms of a society

Breaking the ethical norms of a society

Crisis Management - With the ultimate goal of profit - speculative profit.

Destabilization - of a society at all levels using - ethnicity, religion

All this without WAR

Governing one country, whole countries, - in the case of the European Union, with the ultimate goal of profit. Managing a state at all levels through its close and faithful people. Demoralizing a society. Replacement of civil society with its structures to replace the real civil society. Financing and support of media - television, newspapers, magazines, etc. Financing of political parties for the purpose of coming to power and their use. Funding individuals who will be useful for the future - sociologists, political scientists, politicians, scientists, historians, and all kinds of people.

George Soros's Crisis Generation AS INCREASE INEQUALITIES METHOD

**APPROACH:**

Creating Institutes -

Funding these NGOs

Funding of these institutes

Funding of specific individuals - politicians, political scientists, sociologists, scientists, analysts, government officials

It finances revolutions in racist countries

Funding refugee waves

It funded protest-taking regimes in Africa

Funding events to dismantle countries to seize their raw materials and resources.

**According to Professor Robinson, Weizhop's program is as follows:**

- Destroy all peacekeepers.
- Elimination of heredity
- Removal of private ownership
- Remove patriotism
- Destruction of the family
- Removal of religion
- Creating a global governance

Actually, with his actions and results from his work, Soros proves that he is working on this program. In reality, with his actions and the results of his activities, Soros proves that he is working precisely on this program. In fact, among the most active sponsors of the fight against "Islamophobia" is George Soros, whose Open Society Foundation has recently funded various Islamic organizations with over 2.5 million US dollars. Here, the recipient of these grants is not the "Muslim Brotherhood", but rather the "European Network Against Racism" as the main recipient for a continuous stream of grant schemes. Another organization funded by George Soros is the association for the promotion of Islam in Germany, Inssan. This organization also has ties to the "Muslim Brotherhood". Usually 60% of this funding comes from the Gulf countries, the Federation of Islamic Organizations in Europe. The funding includes the construction of mosques - for example, 3 million euros for the construction of a mosque in the city of Malmö. In Finland, the royal family of Bahrain has prepared an investment of 151 million euros for the construction of a huge mosque in Helsinki. In Bulgaria, over the past 10 years, under the rule of Prime Minister Boyko Borisov, over a thousand mosques have been built, and in Orthodox Bulgaria, only ... churches have been built. In reality, the salaries of the imams in these mosques are paid by the Turkish Diyanet or by Saudi Arabia and the Persian Gulf countries. The goal of these societies is to build a parallel Muslim society in the respective country, which will be a bridge to the entire refugee wave.

The real unofficial ideologist of the organization "Muslim Brotherhood" Yusuf Al-Qaradawi openly states: "I usually tell my brothers in other countries, try to create your own small society, inside the big one, otherwise you will dissolve in it like salt in water.". In reality, through these organizations, a large-scale silent invasion is being launched in the countries of Europe against Christianity - and not only against it, but against the rights and freedoms, morality, ethics, legal and moral norms, which are advertised by leaders Merkel and Macron. In reality, "European liberal and neoliberal democracy" is becoming a real instrument for the formation of the "caliphate". Islamists actually appeal to the principle of equality and constantly complain about the violation of their religious rights and freedom of opinion. In reality, this concept, in addition to dividing European Muslim communities, actually leads to their radicalization. Muslim communities are closed communities that can break open societies in European countries. This concept is actually imposed by the Sharia laws that Islamists impose on European Muslims, In reality, Islam is actually slowly becoming a part of the lives of Europeans, This is also happening through food and eating habits.

It is about "hapal" – foods.

According to Reuters alone, in 2015 alone, this industry in Europe spent \$1.1 trillion on such food worldwide, with profits of \$41 billion. These foods bring income to the "Muslim Brotherhood". In France, only 60% of the production of these foods is controlled by the "Muslim Brotherhood" because only these organizations certify this production and it can be considered "halal". Here we are talking about the Union of Islamic Organizations in France, which has more than 200 members.

### **NEOLIBERALISM AND GLOBALIZATION as an environment for increasing inequality of poverty, division THEORY AND PRACTICE of CREATION, INCREASE, DEEPENING, MANAGEMENT of POVERTY in countries and the world by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobrev – 2004, mafiaization of countries, and all their institutions**

Neoliberalism around the world leads to globalization of the world economy There is a cyclical nature of production and crises are preserved. Crises become more and more honorable. Crises are getting harder to overcome Progressive technologies are developing and there is a strategic superiority of certain countries over the rest of the world. Globalization has led to the full exploitation of small peoples by large peoples. Neoliberalism and globalization do not bring the peoples closer, but they really take them away and real slavery takes place in one country. They bring the near-developing countries closer, which makes the respective crisis immediately affecting all the other countries that are in this industrial and other development. Smaller countries are affected by lagged lag and in smaller degrees. Countries in the world are not at the same level of development, be it industrially, both spiritually and culturally. In neoliberalism, the world and domestic markets are the main driver of economic development. Different countries have different levels of economic development. the different degree of competitiveness. Developed countries' economies produce cheaper, produce more and more quality, and thus impose their output and thus conquer the markets of the smaller ones, not the more developed countries. This is the process of pardoning poverty. Neoliberalism is rising in a natural way using the political system and political parties to impose a financial oligarchy. The financial oligarchy governs the governments and, respectively, the states. In turn, intertwining financial interests and politics brings not only the financial oligarchy but also the corruption and mafia in the state at all levels. The financial oligarchy, the big corporations also hold the government in the elite state.

Neoliberalism can not really be civilian and civilian control to control the government. In fact, governments are creating laws that protect certain corporate interests, support their activities, enforce and legitimize corrupt practices, enforce laws that exclude real civil society, genuinely enforce laws to legalize mafia in governments, and financial mafia. Indeed, governments are creating and adopting laws that legitimize theft, corruption, the mafia, and work in the state. The media are conquered by certain corporations that govern governments and the state, respectively. The media really can not fulfill their function. Real manipulation in favor of the financial and oligarchic mafia is done by the media, which prevents other thinking, opinion, impose corruption and the mafia as a way of life, governance, organization of society. The media are heavily dependent on oligarchs and the oligarchic mafia. The oligarchic mafia governs governments, and thus the whole states. This creates a division and an increase in inequality. GLOBALIZATION and NEOLIBERALISM REALLY MANAGED THE INEQUALITIES.

CREATION and MANAGEMENT OF INEQUALITIES – AND POVERTY THROUGH MIGRATION REFUGEE CRISIS and change of the population of a country - THEORY OF SOCIAL HUMAN GENOCIDE, - 2004 by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobrev, in which are used in, THEORY OF LIFE AND DEGREES OF FEAR - 2004 by Prof. Mochil Dobrev and Prof. Mariola Garibova-Dobrev, CYCLE OF THE TUNNEL SPILA CENTRIFUGE – HUMAN GENOCIDE 2004. Prof. Momchil Dobrev and Mariola Garibova create a THEORY OF SOCIAL HUMAN GENOCIDE, in which all means are used for genocide and pressure on the population and the creation of a new normality and the imposition of a new normality - NEW WORLD ORDER. In this article we will not examine this theory, in which through - food, medicines, healthcare, education, chemical spraying, GMOs, the creation of new medicines that cause new diseases, increasing the influence of deadly diseases, lack of healthcare, depriving healthcare of methods and methods of treatment that lead to a positive result with fewer resources, prices, imposing an education system that achieves dulling, zombification of the young population, replacing history, pressure with high prices, pressure with high prices, costs, of services, products. The same cycle used in the Theory and Practice of Social Personal Genocide is used as follows: CYCLE - FORMULA OF HUMAN SOCIAL PERSONAL GENOCIDE Threat, - fear, uncertainty - chaos - panic, manipulation, propaganda, proposal for a solution, proposal for imposing a new norm, imposing new laws to satisfy this new norm - this genocide

Creation of a threat, fear.

Maintaining fear - in amplitude, of the threat.

Strengthening the fear, the threat.

Expanding the fear, the threat.

Multiplying the fear, the threat.

Modifying the fear, the threat.

Creation of fear, threat at different levels of needs.-

Creation of fear-threat at different levels of perceptions.

Stress – maintaining stress, increasing fear, multiplying fear/stress,

Causing a change in the normal state of a person

Causing another normality – a new one.

Causing mental illnesses and mental deviations.

CYCLE – FORMULA OF THE TUNNEL SYSTEM – SPIRAL – CENTRIFUGE OF HUMAN GENOCIDE in creating POVERTY  
 THREAT - ANXIETY/ RESTLESSNESS – STRESS - FEAR - TENSION - INSURANCE - CHAOS – PANIC – MENTAL DISORDERS –  
 solution proposal – vaccine- Lockdown, NEW TYPE OF VIRUS – LOCKDOWN, VACCINE – FORCED VACCINATION- RELEASING OF  
 MEASURES – REDUCING OF MEASURES, NEW TYPE – MODIFICATION VIRUS – NEW WAVE - / ENTERING A NEW WAVE / -  
 IMPOSE A NEW LOCKDOWN/ new ORGANIZATIONS, CAUSE FORCED VACCINATION – RELEASING OF MEASURES/  
 REDUCING OF MEASURES – CAUSING VACCINATION / OTHER AGE GROUPS / - NEW VIRUS-modified – NEW WAVE - booster  
 dose and so the cycle turns in a spiral, with manipulation at every level.

The cycle speeds up and accelerates. IT ACTS LIKE A CENTRIFUGE.

The cycle is a spiral. The centrifuge leads to more and more vaccination, during a precisely defined period a new vaccination through a booster dose, another booster dose, With each cycle the tension and pressure on the population intensifies, multiplies, the coercion on the population increases. With each cycle the pressure, the coercion on those who think differently, on those who do not want to get vaccinated, also increases. With each cycle, the manipulation and anger increase, the setting of the vaccinated against the unvaccinated and those unwilling to get vaccinated, and this is directed by the manipulation of the state, which aims for a real war between different groups from the same stratum, by shifting the focus of the problem and directing it to the anger between other groups of the population - the vaccinated and the unvaccinated and those unwilling to get vaccinated. With each cycle, more and more groups of people are involved - after the first wave, a second wave follows, followed by a third wave - forced vaccination of children, young people, mandatory vaccination of adults, mandatory vaccination of workers in restaurants, malls, enterprises is implemented. With each cycle, more and more people from different strata are involved - workers, employees in state and municipal organizations and institutions. With each cycle, the pressure on companies, industry, industrial enterprises to not allow unvaccinated workers and employees into their workplaces also increases. With each cycle, the pressure and the stratification and the confrontation between the vaccinated and the unvaccinated and those unwilling to be vaccinated increase. With each cycle, the pressure is the stratification and the confrontation between the different layers of society, different groups of workers, different groups of employees, different types of industries, different types of enterprises. With each cycle, the financial pressure on the population increases, the prices of medicines are constantly increasing - they reach dozens of times the increase, the prices of services, food, living expenses - electricity, water, gas. Fear - the secret weapon for manipulation, management, control of the population Creating fear is a method of controlling people.

#### **STAGES OF THE PROCESS OF CREATING FEAR based on Theory and Practice of Creating and Managing Fear by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobrova**

Creating a threat that creates fear.  
 Maintaining fear - by amplitude, of the threat.  
 Strengthening the fear, the threat.  
 Expanding the fear, the threat.  
 Multiplying the fear, the threat.  
 Modifying the fear, the threat.  
 Creating fear, threat at different levels of needs.  
 Creating fear, threat at different levels of perceptions.  
 Stress - maintaining stress, increasing fear, multiplying fear / stress.  
 Causing a change in the normal state of a person.  
 Causing another normality.  
 Causing mental illnesses and mental deviations

The threat creates fear. Strengthening the threat, maintaining the threat, expanding the threat, multiplying the threat, The threat is to life, the threat is to health, whether he will be able to provide himself with food after the economy is blocked and he is not working. The threat is to his family, to the relationships, contacts, respect in his family, among children, relatives, parents, loved ones, the threat is also to the close love relationships with loved ones, wife, husband. The threat is to life after the lockdowns are in place, whether he will have the means to live, whether he will be able to pay his bills, expenses, expenses for family, children, life and others. The threat is about life in the environment, the surrounding area, the city, the village, the region. The threat is whether he will be able to provide food for his family, relatives, loved ones, elderly parents. The threat is whether he will be able to provide medicines, whether he will have the necessary medicines sought in pharmacies. The threat is whether he will have access to hospitals, polyclinics. The threat is to the home, The threat is to the person's safety from being infected by contact with a neighbor, loved one, friend, relative, colleague-employee, employee in a pharmacy, clinic, hospital. The threat is whether he will be able to work, whether he will not be fired, whether he will keep his job, how he will work during lockdowns, The threat is to his career, to the position he has reached, position at work, in the service, to trust. The threat is whether he will maintain the value of his name, at his professional level. The threat is whether he will maintain his level in social relationships, his level at work, The threat is whether he will maintain the respect of his colleagues, friends, relatives, loved ones, neighbors. The threat is whether he will maintain the prestige and respect for himself from colleagues in the service, work, after the middle of the period in which he is. The threat is whether he will maintain his development at work, the assessment he has reached at work, the recognition at work – his service, the respect from all levels of contact at work in the service. Creating a perceived threat. Threat creates stress at all levels of consciousness.

The threat creates fear in all levels of the population - students, students, workers, bosses, employees in state administration, employees in private companies. Fear is created at all levels in society. Fear in children - small, children in kindergartens, children - students in small classes, students in large classes, students. Fear in parents of all types of children. Fear in employees. Fear between different representatives of different layers of society.

- between students, between fellow students
- between passengers in urban and intercity transport, in road transport, bus, city, transport, metro, trains, airplanes
- Between citizens served in various institutions:
- hospitals
- polyclinics
- theaters
- cinemas

- halls, - fitness halls, sports halls
- salons
- shops
- small shops
- supermarkets
- stores of large m\chains with over 300 sq.m. area - malls
- retail stores
- wholesale stores

Fear is created at all levels. At the level of physiological needs, about whether I will survive, whether I will not get sick, whether I will not be infected by relatives, friends, employees, administrations, work associates, employees at work, a boss, employees in administration, in hospitals, clinics, emergency rooms, halls, universities. Fear makes the psyche sick in depth. Fear cannot be transformed into courage, but into helplessness.

The fear created in the pandemic is caused by stress, frustration, anxiety, crisis, chaos, panic, etc. here we are talking about a specific fear, phobia - a pathological form of fear of the pandemic,

#### **Fear is related to affect.**

- Affect occurs quickly and disrupts the normal course of consciousness, interrupts its unity and harmony.
- In this case, the affect is prolonged, intensifying and attacks and resets mental endurance.
- Affect in the specific case narrows the field of consciousness, seeks to completely conquer it and displace everything else from it.
- The problem here is that affect leads to a real escape from reality, but there is nowhere to go, there is no salvation.
- Affect in the specific case erases sensitivity in a person. His senses do not function, they make mistakes.
- The affect of fear completely paralyzes thinking.
- Affect suppresses the will. A person becomes impulsive in his actions, A person is manipulated by propaganda and the media.
- Affect causes illogical thinking.

Fear develops at all levels of consciousness, subconsciousness, Fear also develops at all levels of needs. So fear is a very unpleasant feeling and a very primary emotion that arises in an animal or a person naturally, spontaneously, at the slightest perception of danger or harm. The physical process that triggers fear is located in the human brain and it causes immediate physical manifestations such as - increased blood pressure, increased blood glucose, palpitations, dizziness, lightheadedness, lack of air, a feeling of helplessness, fear of death, fear of going crazy, real loss of control of reactions.

#### **Principles of the DEEP MAFIA-STATE – a brief description, concept, content, and of the global Masonic elite acting FOR THE UNITING OF NATIONS, STATES, PEOPLES THEORY AND PRACTICE of CREATION, INCREASE, DEEPENING, MANAGEMENT of POVERTY in countries and the world by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobрева – 2004,, mafiaization of countries, mafiaization of institutions in all countries**

The deep state is a corporate, militarized, functionally precisely defined, mafiaized group of people who manage and are owners of financial, banking, corporate, IT companies, unelected by the citizens of the states, who actually manage not only a specific state, but also a group of states, on the principles of Mafia and financial banking resource technological mafiaized Materialism. The deep state has corrupted and mafia-ized all spheres of society on which the governance of a country, of a union depends – in the case of the European Commission and the European Union, the USA, and other countries where people from the deep state rule. All representatives of the deep state are Freemasons and belong to various secret societies, regardless of which ones. For years, all secret societies have been taken over from within by the representatives and bearers of the goals and aspirations of the Illuminati for a new world genocide and dictatorship over humanity. For these Freemasons, the oath is to fulfill the law of the lodge and not to comply with any other laws – those of countries, international law, unions and others, and to do everything in the name and for the benefit of the lodge, observing only the laws of the lodge, but not the respective country, international laws, even committing crimes, helping members of the lodge when they are in trouble, and carrying out the plan of the lodge. All laws and rules are subject to a vow to the ideology and faith in Lucifer and the church of Lucifer / Satan. And the plan is one and only – conquest of the world, rule of the world by a one-world government, only by them – the global Masonic mafia elite.

#### **Concept - Prof. Momchil Dobrev**

**THE DEEP-MAFIASSTATE is an organization, structure, of management, of kleptocracy, and cryptocracy of a group of people from the financial banking, resource, technological, corporate elite of the GLOBAL MASONIC MAFIOTISED ELITE, which works in all countries on the principles of Mafia and financial banking resource technological mafia-styled Materialism.**

#### **SPHERES OF MANAGEMENT, CONTROL, OF THE DEEP STATE, THE MAFIA in MAFIOTISED MAFIOTISED and THE GLOBAL MASONIC ELITE**

The deep state can be found in all spheres of public life, in all countries, governments.
